

CALL FOR PAPERS

ICMPAMC 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPAMC 2020 : International Conference on Marine Protected Areas and Marine Conservation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Protected Areas and Marine Conservation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine protected areas
Ocean basin management
Marine spatial planning
Spatially-delimited areas of the marine environment
Marine conservation
Conservation of biodiversity
Conservation of ecosystems
Conservation of species
Conservation of genotypes
Effects of fishing
Threatening processes

Trophic cascades
Expected benefits of marine protected areas
Scientific benefits of marine protected areas
Factors influencing marine protected areas effectiveness
Monitoring marine protected areas effectiveness
Baselines and long-term monitoring perspectives
Multiple use marine parks
No-take marine protected areas in fisheries management
Global network of marine protected areas
Global conservation outcomes
