

CALL FOR PAPERS

ICMRMM 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMRMM 2020 : International Conference on Metamorphic Rocks and Metamorphic Minerals is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Metamorphic Rocks and Metamorphic Minerals. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metamorphic rocks	Phase change
Metamorphism and metamorphic rocks	Metamorphic
Metamorphic minerals	reaction/neocrystallization
Foliation	Pressure solution
Types of metamorphism	Plastic deformation
Contact metamorphism	Heat, pressure, differential stress
Regional metamorphism	and hydrothermal fluids
Metamorphic rock textures	Hydrothermal fluids
Structural analysis of metamorphic	Supercritical fluid
tectonites	Foliation and compression
Fluids in metamorphic rocks	direction
Stable isotope geochemistry of	Metamorphic compositions
metamorphic rocks	Contact metamorphism
Diffusion flow laws in metamorphic	Dynamic metamorphism
rocks	Regional metamorphism
Recrystallization	Hydrothermal metamorphism
