

CALL FOR PAPERS

ICMSAEA 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSAEA 2020 : International Conference on Modeling Smart Actuators and Electroactive Actuators is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modeling Smart Actuators and Electroactive Actuators. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Modeling smart actuators
Smart actuators
Piezoelectric actuators
Shape memory actuators
Electrorheological and
magnetorheological based devices
Magnetostrictive actuators

Electroactive actuators
Modeling
Design optimization
Control
Motion and position control
Semi-active and active noise and
vibration control
