

# CALL FOR PAPERS

**ICOME 2020**  
**Mar 05-06, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOME 2020 : International Conference on Ocean and Marine Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ocean and Marine Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biological Marine Sciences	Marine Environments and Resources
Climate Change and Global Warming	Marine Hydrodynamics
Coastal & Marine Resources and the Environment	Marine Law and the Regional and International Problems and Difficulties
Environmental and Marine Resources Management	Marine Resource Development and Protection
Fish Resources and Engineering	Marine Resources, Industry & Environment
Fish, Wildlife and Marine Resources	Marine Science and Engineering
Geological, Environmental, and Marine Sciences	Marine Technology and Engineering
Geological Sciences and Marine Geology	Maritime Business
Living Marine Resources	Maritime Safety and Marine Environment Protection
Marine and Atmospheric Sciences	Mathematical & Computational Modeling and Simulation
Marine Biology and Biotechnology	Ocean Engineering
Marine and Coastal Resources Management	Oceanology and Oceanography
Marine and Electrical Engineering	Physical Marine Sciences
