

CALL FOR PAPERS

ICOSMRM 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOSMRM 2020 : International Conference on Oil Spill Management and Restoration Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Oil Spill Management and Restoration Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Oil spill	Dispersants
Oil spill management	Novel clean up strategies and technologies
New technologies for oil spill management	Response tools, mitigation, and community disaster response
Environmental engineering and applications	Human dimensions of oil spills and developing strategies
Restoration and recovery	Public health
Restoration science	Environmental health
Restoration methods	Socioeconomics
Transfer of technology and monitoring protocols	Fisheries
Oil spill science	Community impacts of disasters
Recovery process of injured/restored habitat	Long-term fate and impacts
Spill response and management strategies	Baseline data, monitoring, and information needs
