

# CALL FOR PAPERS

**ICPBB 2020**  
**Mar 05-06, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPBB 2020 : International Conference on Piezoelectric Biosensors and Bioreceptors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Piezoelectric Biosensors and Bioreceptors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Piezoelectric biosensors  
Piezoelectric effect  
Piezoelectric biosensors construction  
Modern day applications of piezoelectric biosensors  
Immobilization methods for piezoelectric biosensors  
Piezoelectric biosensors in clinical practice

Bioanalytical assays with piezosensors  
Biointeractions and cellular studies  
Organophosphate and carbamate proprieties  
Quartz crystal microbalance  
Immobilization procedures of bioreceptors  
Applications of piezoelectric biosensors in the environment
