

CALL FOR PAPERS

ICPCCPQM 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPCCPQM 2020 : International Conference on Power Converter Configurations and Power Quality Management is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Power Converter Configurations and Power Quality Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power converter configurations
Energy and power management
Power quality management, analysis and control
Power electronic converters
Analysis and modeling of power electronic converters
Electrical energy storage
Integration of renewable energy

Fats charging protocols for electric vehicles
Fast charging stations architectures
On-board and off-board fast charging schemes
Vehicle-to-grid services
Wireless power chargers
High power converters
