

# CALL FOR PAPERS

**ICQCIP 2020**  
**Mar 05-06, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQCIP 2020 : International Conference on Quantum Cognition and Information Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Cognition and Information Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum cognition  
Quantum-like brain  
Quantum information processing  
Quantum cognition and decision theories  
Human cognition  
Quantum models of cognition and decision  
Concept theory and natural language processing  
Quantum-like models of information processing  
Decision making

Human probability judgments  
Knowledge representation  
Human memory  
Semantic analysis and information retrieval  
Human perception  
Gestalt perception  
Quantum-like models of cognition in economics and finance  
Application of theory of open quantum systems to decision making and cell's cognition
