

CALL FOR PAPERS

ICRALSCA 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRALSCA 2020 : International Conference on Recent Advances in Large-Scale Computing and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Large-Scale Computing and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Large-scale computing strategies
- Distributed computing
- Parallel computing
- Macro- and micro-computing
- Activity-based computing
- Data intensive computing
- Resource-constraint computing
- Grid computing

- Cloud computing
- Cluster computing
- On-demand computing
- Ubiquitous/pervasive computing
- Memristor Computing
- Unconventional computing
- Evolutionary computing
