

CALL FOR PAPERS

ICRAUC 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRAUC 2020 : International Conference on Recent Advances in Ubiquitous Computing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Ubiquitous Computing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hardware and architecture
Algorithm and protocol designs
Quality of service
Power-aware and energy-efficient designs
Middleware service

Physical interaction and human experience
Service, application, and system
Simulation, modelling, and analysis
Security, privacy, and trust
Emerging technologies
