

# CALL FOR PAPERS

**ICRTFC 2020**  
**Mar 05-06, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRTFC 2020 : International Conference on Recent Trends in Future Computing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Trends in Future Computing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Trends in future computing and applications  
Reflective computing  
Dependable computing  
Urban computing  
Big data-oriented computing  
Fog-computing  
Mobile edge computing

Computing high speed sensing data  
High-performance computing  
Neural computing  
Soft computing  
Spatial computing  
Computing in internet of things  
(IoT)-based environments  
Computing with sparse, big and huge data
