

# CALL FOR PAPERS

**ICSBASSA 2020**  
**Mar 05-06, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSBASSA 2020 : International Conference on Satellite-Based Augmentation Systems and System Architecture is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Satellite-Based Augmentation Systems and System Architecture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Satellite-based augmentation systems

Implementations

Error sources

System architecture

Ground based augmentation systems

Various ground-based augmentation systems

Performance of standard global

navigation satellite system

positioning

Satellite positioning system

augmentation with wireless

communication signals

Aircraft-based augmentation system

Operating in satellite-based augmentation system

Benefits of satellite-based augmentation system

Operational benefits

Airport benefits

Airspace system benefits

Installation requirements
