

CALL FOR PAPERS

ICSMIE 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMIE 2020 : International Conference on Simulation and Modeling in Industrial Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Simulation and Modeling in Industrial Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Discrete-event simulation
Performance evaluation and optimisation
Stochastic modelling and simulation
Distributed simulation
Virtual manufacturing technologies
Virtual reality
Agent-based simulation

Petri-nets
Simulation interfaces
Business process modelling
Intelligent design and manufacturing
Production planning, scheduling and control
Knowledge-based simulation
Simulation in logistics and supply chain design
