

CALL FOR PAPERS

ICAMCCA 2020
Mar 26-27, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMCCA 2020 : International Conference on Applied Mathematics, Computing and Complex Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Mathematics, Computing and Complex Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical sciences
Applied mathematics
Scientific computing
Computer science
Operations research and management
science
Statistics
Complex analysis
Actuarial science
Mathematical economics
Computational mathematics
Computational model

Mathematics and computing
The interplay of modeling and
computational mathematics
Analysis
Geometric analysis
Design and analysis of algorithms
Homotopy analysis
Mathematical methods
Scientific observations
Algebra and number theory
Logic and proof
