

CALL FOR PAPERS

ICESMST 2020
Mar 26-27, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESMST 2020 : International Conference on Electrical Safety Management, Systems and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Safety Management, Systems and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrical safety
Electrical safety testing
Safety equipment for electrical safety
Electrical safety systems and technologies
Electrical safety culture, policy and regulations

Hazard phenomena
Inherently safer design
Work practices
Hazard mitigation
Electrical safety management
