

# CALL FOR PAPERS

**ICSEE 2020**  
**Mar 26-27, 2020**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEE 2020 : International Conference on Structural Engineering and Earthquake is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Engineering and Earthquake. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building and Earthquake Engineering  
Computer Methods in Structural  
Analysis  
Concrete Structure  
Earthquake and Multi-hazards  
Earthquake Risk Reduction for Urban  
and Rural Areas  
Emerging Technologies in Earthquake  
Engineering  
Engineering Mechanics and Strength  
of Materials  
Engineering Seismology  
Experimental Studies on Earthquake  
and Structural Engineering  
Geomechanics  
Geotechnical Engineering  
Graphical and Engineering  
Information  
Numerical Methods in Earthquake  
Engineering

Observation and Analysis of Ground  
Motions  
Ocean Earthquake and Tsunami  
Prestressed Concrete  
Protective Structures  
Seismic Codes and Standards  
Seismic Hazard Analysis and  
Zonation  
Social and Economic Impacts of  
Earthquakes  
Soil Engineering  
Spatial Structures  
Statics of Structures  
Steel Structures  
Structural Analysis  
Structural Building Design
