

CALL FOR PAPERS

ICAAIEE 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAIEE 2020 : International Conference on Applications of Artificial Intelligence in Electrical Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applications of Artificial Intelligence in Electrical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial intelligence in
electrical engineering
Power systems
Electronic systems
Communication systems
Instrumentation systems

Electrical measurements
Biomedical engineering
Growth of artificial intelligence
in electrical engineering
Future of artificial intelligence
in electrical engineering
Reducing costs by using artificial
intelligence
