

CALL FOR PAPERS

ICAE 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAE 2020 : International Conference on Agricultural Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural and natural
biotechnology products
Agricultural Communications
Services
Agricultural Economics
Agricultural Education,
Communications & Leadership
Animal Sciences
Animal-cell biotechnology,
including media development
Applied aspects of cellular
physiology, metabolism, and
energetics
Aquacultural Engineering
Biobased Energy
Biocatalysis and applied
enzymology, including enzyme
reactors, protein engineering, and
nanobiotechnology
Biochemistry and Molecular Biology
Bioenvironmental engineering
Biofuels, including biomass and
renewable resource engineering

Bioinformatics and computer
applications in biotechnology
Biomass and Bio-energy
Biomaterials, including delivery
systems and materials for tissue
engineering
Biomedical sciences and
engineering
Biomolecular engineering
Bio-pharmaceutical engineering
Bioprocess engineering, including
kinetics and modeling of biological
systems, transport phenomena in
bioreactors, bioreactor design,
monitoring, and control
Bioproduction and bioproduct
engineering
Biosensors and instrumentation
Biosystems and Agricultural
Engineering
Biosystems and Engineering
Biotechnology and Bioengineering
Biotechnology applications in
medicine and health
