

CALL FOR PAPERS

ICAPCTM 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPCTM 2020 : International Conference on Agricultural Pollution Control Technologies and Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Pollution Control Technologies and Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural pollution	Heavy metals
Agricultural waste management	Land management
Practices and technology	Tillage and nitrous oxide emissions
Farm waste management practices	Soil erosion and sedimentation
Environmental regulation	Biotic sources
Abiotic sources	Greenhouse gases from fecal waste
Pesticides	Biopesticides
Pesticide leaching	Introduced species
Fertilizers	Invasive species
Leaching, runoff, and eutrophication	Biological control
Organic contaminants
