

CALL FOR PAPERS

ICASR 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASR 2020 : International Conference on Automation Sciences and Robotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automation Sciences and Robotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent Control Systems and Optimization
Genetic Algorithms
Fuzzy Control
Decision Support Systems
Machine Learning in Control Applications
Knowledge-based Systems Applications
Hybrid Learning Systems
Distributed Control Systems
Evolutionary Computation and Control
Optimization Algorithms
Soft Computing
Software Agents for Intelligent Control Systems
Neural Networks based Control Systems

Planning and Scheduling
Intelligent Fault Detection and Diagnosis
Engineering Applications
Robotics and Automation
Image Processing
Vision, Recognition and Reconstruction
Robot Design, Development and Control
Control and Supervision Systems
Telerobotics and Teleoperation
Vehicle Control Applications
Industrial Networks and Automation
Human-Robots Interfaces
