

# CALL FOR PAPERS

**ICASR 2020**  
**Mar 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASR 2020 : International Conference on Automation Sciences and Robotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automation Sciences and Robotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent Control Systems and Optimization  
Genetic Algorithms  
Fuzzy Control  
Decision Support Systems  
Machine Learning in Control Applications  
Knowledge-based Systems Applications  
Hybrid Learning Systems  
Distributed Control Systems  
Evolutionary Computation and Control  
Optimization Algorithms  
Soft Computing  
Software Agents for Intelligent Control Systems  
Neural Networks based Control Systems

Planning and Scheduling  
Intelligent Fault Detection and Diagnosis  
Engineering Applications  
Robotics and Automation  
Image Processing  
Vision, Recognition and Reconstruction  
Robot Design, Development and Control  
Control and Supervision Systems  
Telerobotics and Teleoperation  
Vehicle Control Applications  
Industrial Networks and Automation  
Human-Robots Interfaces
