

CALL FOR PAPERS

ICBW 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBW 2020 : International Conference on Biodegradable Waste is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biodegradable Waste. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biodegradable waste
Biodegradable and non-biodegradable materials
Characterization and potential use
Sources of biodegradable waste
Uses of biodegradable waste
Biodegradable waste management
Areas relying on organic waste
Climate change impacts

Bioplastics and biodegradable plastics
Environmental and economic analysis
Biodegradable municipal solid waste
Biological stability of biodegradable waste
Home digestion trials of biodegradable waste
System and process for treatment of biodegradable waste
Biological treatment of biodegradable waste
New biodegradable waste management plans
