

# CALL FOR PAPERS

**ICCEE 2020**  
**Mar 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEE 2020 : International Conference on Community Ecology and Ecosystems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Community Ecology and Ecosystems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Community ecology and synecology  
Ecology and biology of community  
Community ecology and evolutionary process  
Community ecology in a changing environment  
Theories and approaches in community ecology  
Interspecific interactions in community  
Ecological networks and community ecology  
Processes of ecosystems

Components of an ecosystem  
Ecological efficiency  
Ecological pyramids  
Macro-ecology and biogeography  
Networks and biotic interactions  
Parasites, pathogens and disease  
Predation, mutualism, commensalism and parasitism
