

CALL FOR PAPERS

ICFTBE 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFTBE 2020 : International Conference on Food Technology and Bioprocess Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Technology and Bioprocess Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food science and technology
Food processing technology
Food engineering model: past, present and future
Food microbes: probiotics and functional food
Food and public health
The chemistry of food ingredients
Food and nutrition
Food hygiene and technology
Food safety: prevention and control

Post harvest and food packaging technology
Food industry: edible oils and others
IPR in food technology
Food nanotechnology
Diary food technology
Food waste management
Food laws policy and governance
Food marketing and economics
Investment in food technology
