

CALL FOR PAPERS

ICIWMP 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIWMP 2020 : International Conference on Irrigation Water Management and Practices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Irrigation Water Management and Practices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Agricultural engineering
- Agricultural science
- Agricultural irrigation
- Irrigation practices
- Water conservation
- Irrigation water use
- Water management
- Irrigation system
- Field irrigation efficiency
- Irrigation efficiency
- Irrigation techniques
- Types of irrigation
- Surface irrigation

- Localized irrigation
- Subsurface textile irrigation
- Drip irrigation
- Irrigation using sprinkler systems
- Sprinkler irrigation method
- Sub-irrigation
- Irrigation automatically
- Irrigation using water condensed from humid air
- In-ground irrigation
- Water sources
- Irrigation water
- Irrigation water requirement
- Irrigation improvement
