

# CALL FOR PAPERS

**ICMEA 2020**  
**Mar 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEA 2020 : International Conference on Manufacturing Engineering and Automation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Manufacturing Engineering and Automation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Automotive and Autonomous systems  
Control and Automation  
Design, Modeling and Simulation of  
Mechatronic systems  
Electrical Machines, Drives and  
Power Electronics  
Intelligent Control  
Manufacturing Engineering  
Measurement and Diagnostics  
Mechatronic Education  
Real-time Systems  
Mechatronics and Robotics  
Signal Processing  
Smart Materials and Technologies

Automation Engineering  
Mobile and Bionic Robots  
Advanced Intelligent Mechatronics  
Manufacturing Automation  
Machine Vision System  
Industrial Automation  
Human-Machine Interaction  
Materials science  
Physical System Modelling  
Smart Structures  
Multifunctional Materials  
Machine Design
