

CALL FOR PAPERS

ICMEEMI 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEEMI 2020 : International Conference on Marine Ecosystem and Effects of Melting Ice is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Ecosystem and Effects of Melting Ice. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine biology
Chemical and physical oceanography
Marine geology
Paleoceanography
Eutrophication and nutrient
pollution
Human impacts on marine ecosystem
Tropical marine microbiology

Fish resources and engineering
Biodiversity, ecosystem
functioning, stability and
restoration
Coastal and marine resources and
the environment
Acidification of marine water
Effects of melting ice
Oceanographic instrumentation and
sensors
land ocean interactions in the
coastal zone
