

CALL FOR PAPERS

ICMFPA 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMFPA 2020 : International Conference on Multiple Face Processing and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Multiple Face Processing and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Face recognition, analysis and synthesis
Gesture recognition, analysis and synthesis
Tolerance to face position
Body motion analysis and synthesis, and action recognition
Emotion recognition and facial feature points extraction
Psychological and behavioral analysis

Computer vision in affective computing
Technologies and applications
Simultaneous multiple face processing
Face and facial expression recognition from facial dynamics
Multi-face clustering from video
