

CALL FOR PAPERS

ICMFPDL 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMFPDL 2020 : International Conference on Multiple Face Processing and Deep Learning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Multiple Face Processing and Deep Learning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Face recognition, analysis and synthesis

Gesture recognition, analysis and synthesis

Tolerance to face position

Body motion analysis and synthesis, and action recognition

Emotion recognition and facial feature points extraction

Psychological and behavioral analysis

Person detection and re-identification

Deep learning for human recognition

3D face modeling from video

Datasets for human identification using multiple, different cues

Computer vision in affective computing

Technologies and applications

Simultaneous multiple face processing

Face and facial expression

recognition from facial dynamics

Multi-face clustering from video
