

# CALL FOR PAPERS

**ICMM 2020**  
**Mar 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMM 2020 : International Conference on Marine Micropaleontology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Micropaleontology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine micropaleontology  
Calcareous microfossils  
Siliceous microfossils  
Phosphatic microfossils  
Organic-walled microfossils  
Foraminifera  
Calcareous nannoplankton  
Ostracodes  
Pteropods  
Calpionellids

Calcareous algae  
Bryozoa  
Radiolaria  
Marine diatoms  
Silicoflagellates and ebridians  
Conodonts and other phosphatic microfossils  
Dinoflagellates, acritarchs and tasmanitids  
Spores and pollen in the marine realm  
Chitinozoa
