

CALL FOR PAPERS

ICMMA 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMA 2020 : International Conference on Macromolecular Mechanochemistry and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Macromolecular Mechanochemistry and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The mechanochemistry of organic molecules and soft organic molecules
The mechanochemistry of inorganic compounds and coordination-based materials

Sonication and macromolecular mechanochemistry
The mechanistic understanding, catalysis and scaling up of mechanochemistry
