

# CALL FOR PAPERS

**ICMTTBS 2020**  
**Mar 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMTTBS 2020 : International Conference on Molecular Targets and Targeting in Biomedical Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Targets and Targeting in Biomedical Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular targets and targeting in  
biomedical sciences  
Biomarkers  
Targeted therapy  
Molecular targeting  
Imaging probes  
Molecular imaging

Theranostics  
Library-based display technologies  
Peptides  
Aptamers  
Antibodies
