

CALL FOR PAPERS

ICOMT 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOMT 2020 : International Conference on Ocean Mapping Tools is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ocean Mapping Tools. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ocean mapping
Ocean mapping techniques
Global high-resolution mapping of
ocean circulation
Global ocean mapping
Signal processing for precise ocean
mapping
Ocean modeling
Geological, geophysical and
oceanographic analyses

Ocean acoustic tomography
Generic mapping tools
Mapping ocean observations
Integrated ocean and coastal
mapping
Ocean and coastal management
Methods in oceanography
