

# CALL FOR PAPERS

**ICSCPPE 2020**  
**Mar 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCPPE 2020 : International Conference on Sustainable Chemical Product and Process Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Chemical Product and Process Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

green chemistry and engineering in  
product design  
fine chemical innovation and  
manufacturing sustainability  
innovation in process design for  
sustainability  
environmental health and safety of  
nanotechnology  
alternative and renewable energy  
system and supply chain

energy and sustainability in  
production  
green reaction engineering and  
separation  
biological conversion and process  
sustainability  
water management and reuse  
LCA, sustainability assessment, and  
tools
