

CALL FOR PAPERS

ICAMAVLC 2020
Apr 09-10, 2020
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMAVLC 2020 : International Conference on Advanced Materials for Aerospace and Very Low Crimp is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials for Aerospace and Very Low Crimp. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced materials for aerospace
Standard ply laminates
Non-standard laminates
Double angle-ply laminates
Non-crimp fabrics
Thin ply material
Spread tow manufacturing
Woven cloth
Very low crimp
Multi-layered architectures

Buckling
Vibration
Strength
Damage tolerance
Thermal shape stability
Design heuristics
Ply percentages
Ply contiguity
Thickness tapering
