

CALL FOR PAPERS

ICIEHTP 2020
Apr 09-10, 2020
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIEHTP 2020 : International Conference on Industrial Ecology and High Temperature Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Ecology and High Temperature Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Refractory materials and vessel
integrity
High temperature modelling
High temperature experimentation
Metal recovery

Secondary resources for building
materials
Materials characterization
High temperature processes and
sustainable materials management
