

CALL FOR PAPERS

ICISMAD 2020
Apr 09-10, 2020
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICISMAD 2020 : International Conference on Innovative Space Mission Analysis and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Innovative Space Mission Analysis and Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Innovative space mission analysis
and design for space sciences

Innovative space mission analysis
for earth observation

Automatic identification systems

The space mission analysis and
design process

Mission characterization

Mission evaluation

Mission analysis

Space mission geometry

Orbit and constellation design

Space payload design

Spacecraft design and sizing

Spacecraft computer systems

Spacecraft propulsion systems
