

CALL FOR PAPERS

ICNNF 2020
Apr 09-10, 2020
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNNF 2020 : International Conference on Nanoparticles and Nanostructured Films is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanoparticles and Nanostructured Films. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanostructured films
Nanostructured films and coatings
Synthesis and characterization of nanostructured films
The characterization and use of nanostructured films
Synthesis and processing of nanostructured films

Gas phase synthesis of nanostructured films and coatings
Electrodeposited nanostructured films and coatings
Nanostructured carbon coatings
Semiconductor quantum dot heterostructures
Chemical processing of nanostructured coatings
