

CALL FOR PAPERS

ICCCAM 2020
Apr 23-24, 2020
Boston, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCAM 2020 : International Conference on Cyclodextrin Chemistry and Cyclodextrins in Advanced Materials is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyclodextrin Chemistry and Cyclodextrins in Advanced Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cyclodextrins in advanced materials
Cyclodextrins based stimuli-responsive systems
Green chemistry processes based on cyclodextrins
Cyclodextrins based catalysts
Syntheses of cyclodextrins derivatives and polymers
Applications of cyclodextrins in food

Cyclodextrins-based hydrogels
Cosmetic formulations
Cyclodextrin for vectorization and/or controlled release of active substances
Cyclodextrins involved in environmental depollution (air, soils, waste waters, sediments)
Nano materials and nano-structured coatings containing cyclodextrins
