

CALL FOR PAPERS

ICAE 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAE 2020 : International Conference on Advanced Ecomaterials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Ecomaterials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecomaterials
Development of ecomaterials
Ecomaterial classification
Production process of minimal environmental impacts
High productivity
Minimal hazardous substances
High environmental treatment efficiency
Ecomaterials examples
Green processing of ecomaterials
Environment friendly, resource and energy saving processes

Advanced ecomaterials
Nanostructure, hybrids, porous materials, biomaterials
Energy conversion
Batteries, capacitors, solar cells, and fuel cells
Environmental protection materials
Catalysts, photocatalysts, adsorbents, and sensors
Long-term use materials
Long durability, high reliability, heat resistance, and wear resistance
Coating, self-healing, and maintenance free
