

CALL FOR PAPERS

ICAEDP 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEDP 2020 : International Conference on Architecture and Environmental Design Process is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Architecture and Environmental Design Process. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architectural engineering
Building engineering
Environmental design
Architectural design
Environmental design process
Technology to building design and construction
Design and construction
Engineering for building
Devising plans, programs, policies, buildings or products
Human-designed environment

Strategies of conservation, stewardship and regeneration
Architectural drawing
Design methodology
Design theories and methods
Alternative design solutions
Virtual design environments, data modeling and visualization
Principles of environmental design
Measurement of environmental and energy parameters
Energy balance of buildings
Climate change, energy conservation and economy
