

# CALL FOR PAPERS

**ICAIE 2020**  
**Apr 16-17, 2020**  
**Cape Town, South Africa**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIE 2020 : International Conference on Applications of Interfacial Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applications of Interfacial Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Interfacial engineering

Interaction forces in interfacial systems

Fluid interfaces

Interfacial engineering and electrochemistry

Nature of the colloidal state

Microscopic colloidal behaviour

Applications of interfacial engineering

Capillary phenomena

Amphiphilic systems

Colloidal interactions and flocculation

Rheology of dispersions

Emulsification and flotation

Adsorption and film formation from suspensions
