

# CALL FOR PAPERS

**ICAL 2020**  
**Apr 16-17, 2020**  
**Cape Town, South Africa**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAL 2020 : International Conference on Architectural Lighting is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Architectural Lighting. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architectural lighting design	Controls and zoning
Advances in architectural lighting design and applications	Outdoor lighting
Design of lighting systems	Daylighting
Architecture, interior design and electrical engineering	Photometric studies
Illumination engineering and daylighting	Correlated color temperature
Daylight and electric light	Categorizing different lighting
Lighting design techniques	Light-fixture controls
Photometry and lighting calculations	Lamp types
Visual performance and glare	Incandescent light bulb
Facial appearance and applications in video conferencing	Halogen lamp
Light ratios for accent lighting	Fluorescent lamp
Retail and museum lighting	Led lamp
Flynn atmospheres and your thesis spaces	Carbon arc lamp
