

CALL FOR PAPERS

ICBIS 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBIS 2020 : International Conference on Biodiversity and Insect Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biodiversity and Insect Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Insect science and experiments
Tropical insect science
Molecular insect science
Entomology
Ecological entomology and research
Entomological effects of global warming in agriculture and medical entomology
Entomology around the world
Entomophagy, and entomology in popular culture
Commercial insects
Vector-parasite relationships
Arthropod ecology and biodiversity
Arthropod physiology, morphology, pathology, immunology and toxicology
Arthropod taxonomy and population

Dynamics and genetics
Arthropod molecular biology
Biochemistry and biotechnology
Behavioral and chemical ecology
Economic entomology
Pesticide resistance and residue studies
Ethnoentomology
Forest entomology
Frontiers in entomology
Functional genomics and transgenesis
Genetically modified organisms
Genetics and evolutionary entomology
Insect biomechanics and insect-inspired robotics
