

# CALL FOR PAPERS

**ICCPD 2020**  
**Apr 16-17, 2020**  
**Cape Town, South Africa**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPD 2020 : International Conference on Computer Programming and Software Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Programming and Software Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer programming technology  
Web programming design  
Computer servicing  
Computer operating systems  
Structured query language  
Database structures and administration  
System analysis and design  
Programming logic and design

Networking theory and application  
Object-oriented programming  
Web design and development  
Computer operating systems  
Data structures and algorithms  
Internet programming  
Database concepts with web application
