

CALL FOR PAPERS

ICCTTE 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTTE 2020 : International Conference on Coloration Technology for Textile Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coloration Technology for Textile Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Coloration technology
Application of colour
Colour measurement
Dyes and pigments
Pre- and post-coloration processes
Developments in coloration processes
Coloration technology and industrial practice
Analysis and testing of colorants
Equipment and techniques
Molecular structure, physical form and the effects of colorants

Chemistry, synthesis and manufacture of colorants
Building, machinery, works engineering and organisation for coloration technology
Automation, instrumentation and control for coloration technology
Power and energy resources for coloration technology
Water quality, supply and handling for coloration technology
Effluent, pollution and environmental factors for coloration technology
Colour and constitution
Colour theory, colorimetry and equipment
Colour matching, colour vision, and spectra
Photochemistry of colorants, substrates and chemicals
