

CALL FOR PAPERS

ICEI 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEI 2020 : International Conference on Exercise Intensity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Exercise Intensity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Exercise intensity
Measures of intensity
Exercise intensity levels
Fuel used
Heart rate
Measurement analysis
Exercise intensity and its effects
on thyroid hormones
Physical activity
Light intensity activities
Moderate intensity activities
Vigorous intensity activities

Measuring physical activity
intensity
Effect of exercise intensity on
mood in step aerobics
Impact of exercise intensity on
body fatness and skeletal muscle
metabolism
Exercise intensity, dose, and
cardiovascular disease
Effect of exercise intensity on
depressive symptoms in women
Aerobic exercise intensity
assessment
Resting metabolic rate
Maximum oxygen uptake
Maximal fat oxidation
Monitoring exercise intensity using
heart rate
