

CALL FOR PAPERS

ICESVVM 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESVVM 2020 : International Conference on Environmentally Sustainable Viticulture and Vineyard Management is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmentally Sustainable Viticulture and Vineyard Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmentally sustainable
viticulture
Soil fertility
Soil organic matter
Soil—rootstocks interactions
Roots-soil micro-organisms
interactions
Carbon and water footprint
Vineyard management
Training systems

Canopy and soil management
Climatic constraints
Water and mineral nutrition
Biotic or abiotic stress
physiology
Yield and grape quality
Pests and disease control
Cultivation costs
