

CALL FOR PAPERS

ICETICRTCS 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETICRTCS 2020 : International Conference on Emerging Trends in Industrial Communication and Real-Time Communication Standards is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Emerging Trends in Industrial Communication and Real-Time Communication Standards. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial internet of thing
Cyber physical systems
Distributed measurement systems
Time synchronization mechanisms
Real-time indoor localization systems
Performance evaluation and modelling of communication systems and architectures

Software-defined networking (SDN)
Cloud and fog computing in future factories
Real-time communication standards
Deterministic medium access schemes and real-time scheduling
In-vehicle real-time communications
Cooperating robot sensor networks
