

CALL FOR PAPERS

ICFTST 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFTST 2020 : International Conference on Forest Transportation Systems and Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forest Transportation Systems and Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forest transportation
Forest transport networks
Forest transportation network design
Forest transportation and economics
Transportation techniques in forest engineering
Forest tactical and operational planning
Forest transportation simulation and modeling

Road analysis and design for forest transportation
Modes of transporting forest products
Geotechnical engineering for forest transportation
Different truck configurations used in forest operations
Forest transportation and heavy vehicles
Forest road construction
